About me ⟩

I am Freshman student at Addis Ababa University Instiute of Technology with a deep passion for software engineering and a strong commitment to pursuing a career in the tech industry.

IWith a strong affinity for Python programming and a focus on backend development, I am eager to leverage my skills and academic background to contribute effectively to innovative projects and teams in the field.

Extracurricular Activities

ALX Software Engineering Student

- At ALX, I'm in a one-year online software engineering program, focusing on Linux administration and low-level programming. It's an immersive experience that's sharpening my skills for navigating Linux systems and delving into fundamental programming.

Football Team, Midfield Position

- Played a crucial role in leading the team to victory in the school tournament, demonstrating strong leadership skills, strategic thinking, and effective teamwork.

Sunday School Organizer, Orthodox Christian Church

- I organize the local Orthodox Church's Sunday School, aimed at imparting fundamental Christian teachings to youth, fostering their understanding of Christianity in a nurturing environment.
